

Pending Sites

The six sites in this section are designated as pending assignment to the Division of Publicly Fund Site Remediation (DPFSR) as of June 30, 1998. A site identified as pending assignment to DPFSR will eventually be scheduled for remediation with public funds, by New Jersey Department of Environmental Protection (NJDEP), based on a priority score.

A site currently designated for remediation with public monies can be removed from this list if a responsible party or other interested person(s) commits to remediate the site pursuant to a Memorandum of Agreement or another oversight program in the interim. The NJDEP encourages private parties to remediate contaminated sites with appropriate Department oversight. For those sites not addressed in this manner, NJDEP plans to score, prioritize and remediate with public funds the remaining pending sites.
